REST ROOMS RENOVATED

Council of Clubs Bears Entire Expense of Re-Decoration—Lend Court House Flower Beds, Too.

The Rest Rooms at the Court House have been thoroughly renovated and are now ready for another year of use. The walls have been re-decorated in yellow, with ivory ceilings and the floors and rugs have been cleaned. The expense of this renovation has been borne entirely by the Council of Clubs. B. W. Lemon did the decorating.

Another worthy work of the Council of Clubs this summer is the care of the two flower beds in the court yard. The plants were purchased by the Council and add much to the attractiveness of the lawn surrounding the court house.

CHANGE BRITISH ROYAL NAME.

Special to The Democrat-Forum.

London, July 17.—The British Royal house will hereafter be known as the House of Windsor, because the former name is too German. This decision was made, following a meeting of the privy council.

Neighborly Neighbors, Donors.

It was the Neighborly Neighbor club of Gaynor instead of the Royal Neighbor club which contributed $16.50 to the Red Cross and reported by Parnell. It was published in Saturday's Democrat-Forum.

REGISTRATION PLAN

TOWN MUST TAKE HOLD OF WORK WOMAN'S DAY, JULY 28.

ASKED TO SIGN BLANKS

Every Woman Should Realize That Signing Paper Is Very Small Thing To Do.

The registration of women and girls which is asked by the government will take place July 28.

The plans for the towns are left to those in charge of the work at each place, but the registration will usually be at schoolhouses or private residences.

In the country the school house will be used, and each woman and girl is asked to go to the school house in her school district. One woman will be in charge and will be on duty from 9 a. m. to 5 p. m. She will have three helpers.

At each place of registration, there will be a box for the registration fee. To aid in financing the work of the Missouri Division, Council of National Defense, a registration fee in any amount from one cent up will be asked.

Women are assured that when they sign the registration blanks they are not promising to do anything hard or unpleasant, and they will not be asked to do anything they are unwilling to do. They simply state what work they can do and where they can do it, at home or elsewhere. It may be only the housework they are doing now in care of their families. If they should later be asked to do something for which they had signed and were not then able to do, there would be no penalty and they would be excused.

In answering the questions on the registration blanks, information is given in regard to the conditions of women which is of value to the government. Will every woman realize that signing this paper is a very small thing for her to do, and as a loyal citizen she cannot refuse?

Where it has been impossible to organize the women in time for them to arrange for the registration, it is earnestly hoped that the county school superintendent with the assistance of the men representing the Council of Defense in that county will appoint women in each school district to take charge of it.

TENTING PRIVILEGES GOING

Fred Robinson Says That Only A Few Choice "Camp Houses" Are Left For Chautauqua Week.

The orders for the tenting privileges during Chautauqua week, August 1 to 8 are coming in thick and fast, according to Fred Robinson who has this feature in charge. Only a few choice tents are left and it will pay those who contemplate "camping out" to see Mr. Robinson at once.

Never was a summer more ideal for tenting, the dry, cool weather insuring a relief from many of the disadvantages that are usually attendant upon this sort of amusement. It is probable that many who have never camped before will be seen on the grounds this year with their neighbors and their families.

COUNTIES PREPARE

WILL TAKE AN ACTIVE PART IN PLAY DAY FESTIVAL.

LARGE CROWD EXPECTED

Excellent Condition of Grounds and Favorable Weather Will Assure Attendance of Townpeople.

The nineteen county organizations at the State Normal school will play a prominent part in the Play Day Festival which will be held at Chautauqua Park tomorrow afternoon. The groups representing the various counties have been organized recently and the "Etc." group takes care of those from Iowa and other parts of Missouri.

Great enthusiasm is being shown by the various county groups who are at work preparing songs and stunts to add to the enjoyment of the day. The grounds are in excellent condition and the coolness of the weather will assure a large attendance of Maryville residents, who are invited to the performance from 2 until 4:30 o'clock.

A feature that will also greatly add to the festivities is the music furnished during the afternoon by the Fourth Regiment band. A concert will be given, the band playing all of the national airs.

In order to insure the success of the parade which is the first thing on the program, the play day committee suggests that the members of each county organization meet in the rooms designated so that all disorder may be avoided. The rooms chosen are as follows: Andrew county, 100; Atchison county, 128; Buchanan, 129; Caldwell, 126; Carroll, West Gymnasium; Clay, 130; Clinton, 130; Daviess, 126; DeKalb, 130; Etc., 124; Gentry, West Gymnasium; Grundy, 130; Harrison, 127; Holt, West Gymnasium; Livingston, 124; Mercer, 127; Nodaway, East Gymnasium; Platte, 130; Ray, 103; Worth, 102; Conference of Nations, 125; Military Drill Squad, East Gymnasium; Red Cross Unit, 103.

The order of march as decided on by the committee will be: Fourth Regiment band, Military drill squad, Red Cross unit, Conference of Nations and the counties in alphabetical order.

TO SCHOOL AT RAVENWOOD

Hickory Hill School Board Will Pay Children's Tuition and Transportation to Larger School.

In order to stimulate the interest of the children in school, the Hickory Hill school board at a meeting yesterday evening decided to dispense with the services of a teacher at the school house, 2 miles northwest of Ravenwood, and to pay the children's tuition at the Ravenwood school so that they may attend there.

Transportation will also be furnished out of the fund usually used for the salary of the teacher. Arrangements have been made with Frank Loch of Ravenwood, who for $50 a month will make the seven-mile route each morning and call for the ten children in the district. He will return with them in the evening. He will use a car in good weather and a team when the roads are bad.

The experiment will be tried and if it is not successful, the board will hire a teacher for the next year. The failure of the children to attend regularly last year was the cause of the move on the part of the school board, whose members are: Elmer McKee, V. O. Hunt and Alfred Crater.

Giants Beat the All-Stars.

The Maryville All-Stars were defeated yesterday at the Fair Grounds by the Western Giants by a score of 2-1. The All-Stars will play a return game Thursday at the Fair Grounds. The batteries for the All-Stars were Carsten and Keefe, and for the Giants French and Pope. A good game is assured for Thursday.

"PENSION" ABUSES

96 MISSOURI COUNTIES DRAW MORE THAN THEY PAY STATE.

CAUSE OF INDEBTEDNESS

One Reason Why Governor Gardner Had to Borrow Money—Nodaway Pays $3,594 to State.

Special to The Democrat-Forum.

Jefferson City, July 17.—The new state tax commission has compiled figures to show that only the city of St. Louis and eighteen counties pay more revenue into the state treasury than they draw from the state. Nodaway is one of these counties, paying in $3,594.70 to the state. These figures are based on last year's receipts and expenditures. This leaves ninety-six counties on the pension list. These facts are cited as one reason why Governor Gardner was compelled to borrow $2,125,000 to pay off state debts

Among the worst examples of counties "pensioned" by the state are Greene and Jasper counties. Jasper is a wealthy county. In it are the greatest zinc mines in the world, a city of nearly 75,000 inhabitants and several third-class cities, all surrounded by a good farming country. Jasper county last year drew $28,042.54 more from the State treasury than it paid in.

Greene county, with one large city, splendid farms, orchards, mines, etc., drew $3,311.51 more than it paid. Outside the two counties named, here is a list of twenty-two wealthy counties on the "pension roll" and the amount each drew from the state last year:

Audrian, $477.60; Barton, $8,295.59; Bates, $4,325.87; Boone, $7,290.34; Callaway, $6,405.32; Carroll, $5,117.99; Cass, $6,670.62; Chariton, $5,283.32; Dunklin, $13,792.81; Henry, $12,109.91; Lewis, $8,230.80; Lincoln, $4,124.22; Linn, $5,789.32; Livingston, $1,060.51; Macon, $7,596.24; Monroe, $570.14; Pike, $5,405.47; Randolph, $4,829.76; Ray $352.96; Saline, $640.22; Shelby, $2,727.26; Vernon, $891.27.

St. Louis Excess $1,879,373.

The excess paid in by the city of St. Louis was $1,879,373.48. The eighteen counties that also contributed to the support of the state government and the amount each paid were:

Atchison, $4,507.38; Buchanan, $33 229.47; Clay, $1,763.95; Clinton, $2,724.33; Cole, $3834.55; Daviess, $265.50; De Kalb, $5,696.11; Franklin, $1,114.74; Jackson, $275,749.35; Johnson, $1,248.41; Lafayette, $2,177.93; Marion, $4,725.36; Nodaway, $3,594.70; Pettis, $321.46; Platte, $1,149.93; St. Charles, $19,359.17; St. Louis, $77,436.34; Warren, $1,146.37.

Not a county in five of the sixteen congressional districts of the state pays one penny into the treasury that it does not draw out, with money paid in by other counties and the city of

TO DRAFT 141 HERE

THIS IS UNOFFICIAL ESTIMATE OF NODAWAY'S CONTRIBUTION.

POPULATION, THE BASIS

This Number Is Over And Above What The County Has Furnished As Volunteers.

Special to The Democrat-Forum.

Jefferson City, July 17.—Figuring on the population of the various counties, the total population of Missouri and the quota of 18,660, which the state must furnish for the draft, statisticians here today obtained approximately the number of men each county in Missouri must furnish. Nodaway's contribution will be 141 men.

These figures were obtained by getting the percentage of each county's population to the total of the state and multiplying the 18,660 state quota by this percentage which gives the number required for each county.

The 141 men which Nodaway county must furnish is over and above what the county has furnished for the National Guard and the Regular Army, as Missouri was given credit for the troops already furnished, and her net quota is 18,660.

The figures for each county are not official, but General McCord hopes to announce the official figures in a few days.

Neighboring counties must furnish the following numbers: Buchanan, 79; St. Joseph, 410; Holt, 66; Andrew, 72.

TELEPHONE LINEMAN INJURED.

John Lahr of Quitman Hurt By Pole Which Breaks and Falls on Him.

John Lahr, lineman for the Peoples' Telephone company at Quitman, was badly injured yesterday while working on the Bilby line, west of Quitman.

Mr. Lahr was clinging to a pole which broke near the ground, letting him fall. He struck his head and shoulders on a wagon near by. Mr. Lahr also received bruises by the pole which fell on him. He was brought to Quitman immediately and given medical attention. He is improved today.

SENDING TROOPS

DIFFICULTIES OF TRANSPORTING SOLDIERS TO FRANCE ARE MANY.

SUPPLIES ARE LACKING

Scarcity of Ships Is Also A Factor Which Will Cause Delay in Getting Armies to the Front.

Special to The Democrat-Forum.

Washington, July 17. — Records show that it is impossible to transport more than 60,000 troops to France before November or not more than a quarter of a million by next year. The need of supplies and the lack of ships is the cause. The American base on the sea coast is six times farther from the front than that of the British, forcing Pershing's men to build railroads which will necessitate a hundred thousand tons of railroad ties, 700 locomotives, and 60,000 box cars.

Food Bill Being Blocked.

Washington, July 17.—Senator Gore charges that there is a gigantic lobby blocking the food bill. He asked this afternoon to have the powers of the lobby committee extended so that a sweeping investigation might be made.

Draft Drawing Thursday, Maybe.

Washington, July 17.—Though ten states have not yet completed the draft preliminaries, Crowder believes that everything will be in working order by noon tomorrow. He hopes to get to the drawing by Thursday, but certainly by Saturday. He will hold a conference with Baker tonight to make final plans. He is expected to announce the details tomorrow.

Aviation Bill Recommended.

Washington, July 17.—The Senate military affairs committee recommended the aviation bill unanimously after half an hour's discussion, breaking the record.

Washington, July 17.—The senate military affairs committee is considering the $640,000,000 aviation bill. It is hoped that it will be before the senate tomorrow and to the President by Saturday.

ARE AGAINST CONSCRIPTION.

Government Faces Serious Opposition in Quebec Province Where Riots Have Occured.

Special to The Democrat-Forum.

Montreal, July 17.—The government faces serious opposition to the conscription law among the French-Canadians in the Quebec province, following a series of anti-draft riots. Colonel Rexford speaking for conscription was mobbed and stoned and more than 10,000 persons took part. No effort was made to arrest the parties. Orators are urging the natives to withdraw money from the banks.

BRITISH IN SEA FIGHT.

Special to The Democrat-Forum.

London, July 17.—A naval fight between the armed German steamships and the British light forces on the North sea was officially reported today. Two German ships were badly damaged but reached the coast of Holland. Four German steamships were captured.

MICHAELIS PREPARES SPEECH.

Special to The Democrat-Forum.

Zurich, July 17.—A Berlin dispatch says that Dr. Michaelis, the new chancellor, is holding a series of party conferences in the preparation of his speech before the Reichstag and will confer with the Kaiser before the speech. It is rumored that Vatican influence were in the movement against Von Bethman-Hollweg.

26,000 SLACKERS IN TEXAS.

San Antonio, July 17.—Government agents have estimated that there are 20,000 slackers in Texas.

"No More Fishing On The 102" Says "Froggy" Miles, Fisherman

Lloyd ("Froggy") Miles, linotype operator for the Democrat-Forum, when not engaged in setting up the news for the daily edition, is fond of the out-of-doors and is a devoted disciple of Isaak Walton.

There is one river in Nodaway county, though, that will never again feel the touch of Froggy's line, nor have any of his bait with which to feed its hungry fish. This is no other than the 102, which fell from Froggy's good graces last Sunday.

Froggy's small son, George, and his brother-in-law, Harold Adle, crawled out of their comfortable beds before dawn Sunday morning and made their way to the river in order to be on the spot when the fish were scouting around for their breakfast. Every possible preparation had been made to catch the unwary fish and only the importunities of Mrs. Miles prevented Froggy from hiring a truck to meet the party in the afternoon and haul the load of fish back to town.

When they arrived at the river it was dark and cold and the fish didn't behave as well as expected. It was uncomfortable waiting, but the thought of the fine fish supper in the evening buoyed up their spirits.

The hours passed. The fish had evidently heard that "strikes" were in vogue in man's world and had decided to try one. They refused to bite. Nice, juicy worms of all kinds were offered to the strikers, but they refused even to compromise.

At 2 o'clock the three fishermen gave up in despair. Froggy had one lonely regulation size fish and Harold Adle had another.

No more fishing on the 102 for Froggy, so he says.

Various Types of Home Canning Equipment

There are four types of canning outfits suitable for home use, according to the home economics specialists of the New York College of Agriculture, who are urging every housewife to preserve some of summer's bounty against winter's wants.

A homemade hot water canner may be made out of a tin bucket or a clothes boiler or any utensil deep enough to allow cans to be covered by an inch of boiling water. A rack or false bottom is necessary to keep cans off the bottom of the container and insure free circulation of the boiling water. A tight fitting cover will help retain heat and save fuel. The commercial hot water outfits will hold more cans at one time, and they have perforated racks with handles, which are a help in handling the cans. Some commercial canners have a fire box, so they can be used out of doors.

Steam cookers are light, easily handled and fit the stove better than the boiler types. They can be used for ordinary cooking as well as for canning.

Water seal canning outfits are so made that a so called seal of water holds the cover down and creates a slight steam pressure in the space above the cans. This pressure increases the temperature somewhat above that of boiling water.

The steam pressure canners are designed to increase temperatures much above the boiling point by holding the cans under considerable pressure. Five to fifteen pounds pressure is possible in a number of portable steam pressure canners made for household use. Steam pressure canners save labor, time and heat because they shorten the time required for complete sterilization.

St. Louis.

The taxable wealth of Missouri never has reached $2,000,000,000. In Kansas it is about $3,000,000,000. Kansas has no big cities, no diversified farming, and few mines of consequence, save in the extreme southeast counties.

Reforms Are Promised.

The assessors of the state have promised the Tax commission they will obey the strict letter of the law in the future in regard to listing property at its cash value. If they do, the taxable value of the state probably will be doubled.

In the past the State Board of Equalization has failed, as have the assessors, to list property at its actual value, as the law says shall be done. The chairman of the State Tax commission, Cornelius Roach, was a member of the State Board of Equalization for eight consecutive years.

When Marriage Is A Failure.

Surely marriage is a failure when its essential purpose, the raising of a family of children, proves impossible. In the childless home the married pair, though sometimes more or less unconscious of the fact, grow disappointed and lonely. Lacking the best tie to hold them together they are likely to drift apart, hence many separations and divorces.

If every wife, whose physical state prevents motherhood, would but try that great remedy, Lydia E. Pinkham's Vegetable Compound, there would be far fewer childless homes.

Habits Are Forces

Even without considering at all the common bad habits, just think of the thousand and one little habits that largely determine one's every thought and act. In the commonest things every one is influenced by innumerable little habits that he seldom suspects. Hardly an impression, emotion, opinion, resolution or action is possible to us that is not influenced, directed and colored by fixed conditions within ourselves—habits.

Almost every move in the process of the morning's dressing, for example, is involuntary and calls for no conscious thought. Your mind is absorbed in mapping out the day's work while habit is washing and dressing you.

Habit accustoms us to doing most of the everyday things in particular ways, and we consciously turn the mind to them only when they chance to be done differently. The dividing line between efficiency and inefficiency is largely right here. Any one who stops to think about it can easily see that innumerable little habits make up a very large part of our lives. It is, indeed, well worth while carefully to study the host of little habits that breed and hide in the most secret cells of brain and muscle. None of them is too small to be worth attention.

Bad habits are the little threads with which the weak Lilliputians bound the strong Gulliver in helplessness.

Good habits are like a well made harness, enabling us to do our work in the world with less friction and waste of energy.

Habits we cannot avoid. Nor can we escape being greatly controlled by them. But we have free choice between the habits that are good and helpful and habits that are bad and harmful.—Christian Herald.

Man's Free Will.

Man's free will is but a bird in a cage. He can stop at the lower perch or he can mount to a higher. Then that which is and knows will enlarge his cage, give him a higher and a higher perch and at last break off the top of his cage and let him out to be one with the free will of the universe.—Lord Tennyson.

Girls Who Work

Here is the gist of a discussion at a business conference:

"There's nothing easier than to get out of date in your job. Because you've made a good record don't think you can lie back on it and let it float you the rest of your life. You'll find yourself in backwater in no time.

"You've got to keep growing. One way is to keep interested in what's being done all round you, especially in your own business. Another way is to get some friend you can trust to point out to you where you are slacking. Another way is to bring a few tests to bear on yourself at least once or twice a year—not salary tests (these may be deceptive), but work and idea tests."

We women need to do a lot of growing, whatever our work may be.—Jessie Roberts in New York Globe.

The Beautiful.

We ought to acquaint ourselves with the beautiful; we ought to contemplate it with rapture and attempt to raise ourselves up to its height, and in order to gain strength for that we must keep ourselves thoroughly unselfish. We must not make it our own, but rather seek to communicate it—indeed, to make a sacrifice of it to those who are dear and precious to us.—Goethe.

Joys of Life.

Along all our pathways sweet flowers are bloosoming if we will only stop to pluck them and smell their fragrance. In every meadow birds are warbling, calling to their mates and soaring into the blue, if we will only stop our grumbling long enough to hear them.

WORTH WHILE.

It is easy enough to be pleasant
When life flows by like a song,
But the man worth while is one who will smile
When everything goes wrong.
For the test of the heart is trouble,
And it always comes with the years,
And the smile that is worth the praises of earth
Is the smile that shines through tears.

It is easy enough to be prudent
When nothing tempts you to stray,
When without or within no voice of sin
Is luring your soul away.
But it's only a negative virtue
Until it is tried by fire,
And the life that is worth the honor of earth
Is the one that resists desire.

By the cynic, the sad, the fallen,
Who had no strength for the strife,
The world's highway is cumbered today.
They make up the item of life.
But the virtue that conquers passion
And the sorrow that hides the smile—
It is these that are worth the homage of earth,
For we find them but once in awhile.

What Women Like to Know

Smart Sport Suit

Silk of superior quality is the material for the waist here illustrated It is a tailored model, with pin tucked shirt bosom, flat pointed collar and turnback cuffs ornamented with pearl buttons. The sport shirt is of washable white satin with soft draped plaits in front and gathered back. The skirt is finished with satin covered buttons and handmade buttonholes. The belt is detachable. Design by Franklin Simon & Co., New York.

SILK AND SATIN.

To Wash a Sweater.

Make a paste of a white soap and water by boiling the shaved soap slowly until dissolved. Cool and add one teaspoonful borax and one-half cupful wood alcohol. Have warm water in plenty ready (in washtub); add soap solution to water and put in sweater. "Jounce" or swish up and down without pulling or rubbing; repeat in more sudsy water. Then rinse in water equally warm and squeeze without twisting against the wool fibers. Lay in a pillow case and hang in open air turning once or twice. When almost dry lay on a table or ironing board and pin into shape, flat, with arms and fronts even and in place and allow to dry, preferably in a warm temperature. Lay in suitbox or on covered coat hanger. Never hang up or squeeze such articles when wet.

Remedy For Corns.

Speedy removal of corns and callouses may be effected by painting twice a day with a solution of salicylic acid. Have your druggist make up the following prescription: Salicylic acid, fifteen grains; extract of cannabis indica, eight grains; alcohol, fifteen drops; ether, forty drops; flexible collodion, seventy-five drops. In applying this avoid the healthy skin. Use a camel's hair brush. Continue this for a week and the corn will fall off and callouses as well. Bathing the feet in hot water will facilitate the process of separation.

Making Good Buttonholes.

When making buttonholes in woolen, silk, or, in fact, any other material that frays, first measure accurately where the buttonholes are to be, then stitch two parallel lines with the sewing machine on the garment, the required size for the button. These lines must be about one-fourth of an inch apart. Then cut the buttonhole between the lines and buttonhole stitch with twist.—Farm and Fireside.

Homemade Detergent.

A first class homemade detergent cleaner can be made as follows: Dissolve a five cent cake of white soap in two quarts of water, add a teaspoonful of borax and a tablespoonful of alcohol. If the water is very hard double these amounts. This solution is economical, effective and noninflammable.

SAID OF WOMEN.

Women of forty always fancy they have found the fountain of youth and that they remain young in the midst of the ruins of their day.—Arsene Houssaye.

The perfect loveliness of a woman's countenance can only consist in that majestic peace which is founded in the memory of happy and useful years, full of sweet records.—John Ruskin.

Cool Comfort

with a bottle or two of *ice cold* Pablo. Pablo, the pure non-alcoholic thirst-quencher, is the delightful hot weather beverage because it cools and satisfies immediately. Its good old "hoppy" flavor delights and refreshes. Pablo brings invigorating comfort any time.

The Happy "HOPPY" DRINK

is the season's most popular beverage. The goodness of sparkling Pablo is more important because Pablo is healthful. Drink as much Pablo as you desire. You can't find a more enjoyable drink. Pablo chases away hot weather fatigue. Its snappy hop flavor adds zest and joy to any occasion. Keep Pablo on ice in the home—for your own use and for unexpected company Pablo gives delight and joy. Kansas City Stock Letter.

Kansas City Stock Yards, July 16.—Cattle today 32,000, biggest run this summer, market steady to 15c lower, but the best market for the size of the run anybody ever saw, top natives $13.55. Hogs today 10,000, market steady, top $15.80, same as top in Chicago. Sheep and lambs today 3,500 market steady, no choice lambs, but that kind quotable up to $15.50.

Beef Cattle.

Kansas furnished the biggest share of the run today, Oklahoma next, then Texas. A large part of the supply was light weight grass steers, on the fence between killers and stockers, and there are some loss on that kind. Prime Missouri steers topped the market at $13.55, highest price ever paid here on the open market. Kansas steers sold up to $11.85, ranging from $9.25 upwards, and Oklahoma grass steers to killers sold mostly at $9 to $10, some light ones down to $7. North Texas cake fed steers sold at $10.20 to $11. Cows sold steady to 10c lower, grass cows $7 to $8.75, canners $6 to $7, bulls $6.75 to $8.50, veals up to $13.75.

Stockers and Feeders.

Corn prospects are not far enough along to count on for sure, and the country is not quite ready for a run of the proportions of that of today, but best stockers sold steady, $9 for several lots, and downwards, the common stockers selling at $6.25 to $7.25. Feeders brought $7.50 to $10, stock cows and heifers $6 to $8.25.

Hogs.

Supply at the combined markets fell short of last Monday, and steady prices resulted, choice heavy weights selling up to $15.80, best medium weights $15.70, best lights $15.30, bulk of sales $15 to $15.65. The country promptly quit shipping last week when the market declined 30c to 40c, indicating plenty of faith in future prices. Corn is costing big money, but owners refuse to be rushed in putting hogs on the market. There is some bear sentiment, but most dealers believe the market is on a safe footing that will extend through August and September.

Sheep and Lambs.

Prices have remained unchanged since the first of last week including today, best lambs worth $15.50, ewes $9, weathers $10, yearlings $11.50. Fresh mutton and lamb are selling better at Eeastern consuming centers than a week ago, some improvement may be noted soon. Feeding lambs sold at $14 today, at which price it is easy to figure a profit, providing fat lambs do not fall below 15 cents a pound. Feeding lambs for fall delivery are selling on the range around 15 cents a pound.

John Curtis Wallace was the guest yesterday of his cousin, Augusta Edwards.

REST ROOMS RENOVATED

Council of Clubs Bears Entire Expense of Re-Decoration—Tend Court House Flower Beds, Too.

The Rest Rooms at the Court House have been thoroughly renovated and are now ready for another year of use. The walls have been re-decorated in yellow, with ivory ceilings and the floors and rugs have been cleaned. The expense of this renovation has been borne entirely by the Council of Clubs. B. W. Lemon did the decorating.

Another worthy work of the Council of Clubs this summer is the care of the two flower beds in the court yard. The plants were purchased by the Council and add much to the attractiveness of the lawn surrounding the court house.

REGISTRATION PLAN

TOWN MUST TAKE HOLD OF WORK WOMAN'S DAY, JULY 28.

ASKED TO SIGN BLANKS

Every Woman Should Realize That Signing Paper Is Very Small Thing To Do.

The registration of women and girls which is asked by the government will take place July 28.

The plans for the towns are left to those in charge of the work at each place, but the registration will usually be at schoolhouses or private residences.

In the country the school house will be used, and each woman and girl is asked to go to the school house in her school district. One woman will be in charge and will be on duty from 9 a. m. to 5 p. m. She will have three helpers.

At each place of registration, there will be a box for the registration fee. To aid in financing the work of the Missouri Division, Council of National Defense, a registration fee in any amount from one cent up will be asked.

Women are assured that when they sign the registration blanks they are not promising to do anything hard or unpleasant, and they will not be asked to do anything they are unwilling to do. They simply state what work they can do and where they can do it, at home or elsewhere. It may be only the housework they are doing now in care of their families. If they should later be asked to do something for which they had signed and were not able to do, there would be no penalty and they would be excused.

In answering the questions on the registration blanks, information is given in regard to the conditions of women which is of value to the government. Will every woman realize that signing this paper is a very small thing for her to do, and as a loyal citizen she cannot refuse?

Where it has been impossible to organize the women in time for them to arrange for the registration, it is earnestly hoped that the county school superintendent with the assistance of the men representing the Council of Defense in that county will appoint women in each school district to take charge of it.

TENTING PRIVILEGES GOING

Fred Robinson Says That Only A Few Choice "Camp Houses" Are Left For Chautauqua Week.

The orders for the tenting privileges during Chautauqua week, August 1 to 8 are coming in thick and fast, according to Fred Robinson who has this feature in charge. Only a few choice tents are left and it will pay those who contemplate "camping out" to see Mr. Robinson at once.

Never was a summer more ideal for tenting, the dry, cool weather insuring a relief from many of the disadvantages that are usually attendant upon this sort of amusement. It is probable that many who have never camped before will be seen on the grounds this year with their neighbors and their families.

"No More Fishing On The 102" Says "Froggy" Miles, Fisherman

Lloyd ("Froggy") Miles, linotype operator for the Democrat-Forum, when not engaged in setting up the news for the daily edition, is fond of the out-of-doors and is a devoted disciple of Isaak Walton.

There is one river in Nodaway county, though, that will never again feel the touch of Froggy's line, nor have any of his bait with which to feed its hungry fish. This is no other than the 102, which fell from Froggy's good graces last Sunday.

Froggy's small son, George, and his brother-in-law, Harold Adle, crawled out of their comfortable beds before dawn Sunday morning and made their way to the river in order to be on the spot when the fish were scouting around for their breakfast. Every possible preparation had been made to catch the unwary fish and only the importunities of Mrs. Miles prevented Froggy from hiring a truck to meet the party in the afternoon and haul the load of fish back to town.

When they arrived at the river it was dark and cold and the fish didn't behave as well as expected. It was uncomfortable waiting, but the thought of the fine fish supper in the evening buoyed up their spirits.

The hours passed. The fish had evidently heard that "strikes" were in vogue in man's world and had decided to try one. They refused to bite. Nice, juicy worms of all kinds were offered to the strikers, but they refused even to compromise.

At 2 o'clock the three fishermen gave up in despair. Froggy had one lonely regulation size fish and Harold Adle had another.

No more fishing on the 102 for Froggy, so he says.

COUNTIES PREPARE

WILL TAKE AN ACTIVE PART IN PLAY DAY FESTIVAL.

LARGE CROWD EXPECTED

Excellent Condition of Grounds and Favorable Weather Will Assure Attendance of Townpeople.

The nineteen county organizations at the State Normal school will play a prominent part in the Play Day Festival which will be held at Chautauqua Park tomorrow afternoon. The groups representing the various counties have been organized recently and the "Etc." group takes care of those from Iowa and other parts of Missouri.

Great enthusiasm is being shown by the various county groups who are at work preparing songs and stunts to add to the enjoyment of the day. The grounds are in excellent condition and the coolness of the weather will assure a large attendance of Maryville residents, who are invited to the performance from 2 until 4:30 o'clock.

A feature that will also greatly add to the festivities is the music furnished during the afternoon by the Fourth Regiment band. A concert will be given, the band playing all of the national airs.

In order to insure the success of the parade which is the first thing on the program, the play day committee suggests that the members of each county organization meet in the rooms designated so that all disorder may be avoided. The rooms chosen are as follows: Andrew county, 100; Atchison county, 128; Buchanan, 129; Caldwell, 126; Carroll, West Gymnasium; Clay, 130; Clinton, 130; Daviess, 126; DeKalb, 130; Etc., 124; Gentry, West Gymnasium; Grundy, 130; Harrison, 127; Holt, West Gymnasium; Livingston, 124; Mercer, 127; Nodaway, East Gymnasium; Platte, 130; Ray, 103; Worth, 102; Conference of Nations, 125; Military Drill Squad, East Gymnasium; Red Cross Unit, 103.

The order of march as decided on by the committee will be: Fourth Regiment band, Military drill squad, Red Cross unit, Conference of Nations and the counties in alphabetical order.

TO SCHOOL AT RAVENWOOD

Hickory Hill School Board Will Pay Children's Tuition and Transportation to Larger School.

In order to stimulate the interest of the children in school, the Hickory Hill school board at a meeting yesterday evening decided to dispense with the services of a teacher at the school house, 2 miles northwest of Ravenwood, and to pay the children's tuition at the Ravenwood school so that they may attend there.

Transportation will also be furnished out of the fund usually used for the salary of the teacher. Arrangements have been made with Frank Loch of Ravenwood, who for $50 a month will make the seven-mile route each morning and call for the ten children in the district. He will return with them in the evening. He will use a car in good weather and a team when the roads are bad.

The experiment will be tried and if it is not successful, the board will hire a teacher for the next year. The failure of the children to attend regularly last year was the cause of the move on the part of the school board, whose members are: Elmer McKee, V. O. Hunt and Alfred Crater.

Giants Beat the All-Stars.

The Maryville All-Stars were defeated yesterday at the Fair Grounds by the Western Giants by a score of 2-1. The All-Stars will play a return game Thursday at the Fair Grounds. The batteries for the All-Stars were Carsten and Keefe, and for the Giants French and Pope. A good game is assured for Thursday.

"PENSION" ABUSES

96 MISSOURI COUNTIES DRAW MORE THAN THEY PAY STATE.

CAUSE OF INDEBTEDNESS

One Reason Why Governor Gardner Had to Borrow Money—Nodaway Pays $3,594 to State.

Special to The Democrat-Forum.

Jefferson City, July 17.—The new state tax commission has compiled figures to show that only the city of St. Louis and eighteen counties pay more revenue into the state treasury than they draw from the state. Nodaway is one of these counties, paying in $3,594.70 to the state. These figures are based on last year's receipts and expenditures. This leaves ninety-six counties on the pension list. These facts are cited as one reason why Governor Gardner was compelled to borrow $2,125,000 to pay off state debts

Among the worst examples of counties "pensioned" by the state are Greene and Jasper counties. Jasper is a wealthy county. In it are the greatest zinc mines in the world, a city of nearly 75,000 inhabitants and several third-class cities, all surrounded by a good farming country. Jasper county last year drew $28,042.54 more from the State treasury than it paid in.

Greene county, with one large city, splendid farms, orchards, mines, etc., drew $3,311.51 more than it paid. Outside the two counties named, here is a list of twenty-two wealthy counties on the "pension roll" and the amount each drew from the state last year:

Audrian, $477.60; Barton, $8,295.59; Bates, $4,325.87; Boone, $7,290.34; Callaway, $6,405.32; Carroll, $5,117.99; Cass, $6,670.62; Chariton, $5,283.32; Dunklin, $13,792.81; Henry, $12,109.91; Lewis, $8,230.80; Lincoln, $4,124.22; Linn, $5,789.32; Livingston, $1,060.51; Macon, $7,596.24; Monroe, $570.14; Pike, $5,405.47; Randolph, $4,829.76; Ray $352.96; Saline, $640.22; Shelby, $2,727.26; Vernon, $891.27.

St. Louis Excess $1,879,373.

The excess paid in by the city of St. Louis was $1,879,373.48. The eighteen counties that also contributed to the support of the state government and the amount each paid were:

Atchison, $4,507.38; Buchanan, $33 229.47; Clay, $1,763.95; Clinton, $2,724.33; Cole, $3834.55; Daviess, $265.50; De Kalb, $5,696.11; Franklin, $1,114.74; Jackson, $275,749.35; Johnson, $1,248.41; Lafayette, $2,177.93; Marion, $4,725.36; Nodaway, $3,594.70; Pettis, $321.46; Platte, $1,149.93; St. Charles, $19,359.17; St. Louis, $77,436.34; Warren, $1,146.37.

Not a county in five of the sixteen congressional districts of the state pays one penny into the treasury that it does not draw out, with money paid in by other counties and the city of

TO DRAFT 141 HERE

THIS IS UNOFFICIAL ESTIMATE OF NODAWAY'S CONTRIBUTION.

POPULATION, THE BASIS

This Number Is Over And Above What The County Has Furnished As Volunteers.

Special to The Democrat-Forum.

Jefferson City, July 17.—Figuring on the population of the various counties, the total population of Missouri and the quota of 18,660, which the state must furnish for the draft, statisticians here today obtained approximately the number of men each county in Missouri must furnish. Nodaway's contribution will be 141 men.

These figures were obtained by getting the percentage of each county's population to the total of the state and multiplying the 18,660 state quota by this percentage which gives the number required for each county.

The 141 men which Nodaway county must furnish is over and above what the county has furnished for the National Guard and the Regular Army, as Missouri was given credit for the troops already furnished, and her net quota is 18,660.

The figures for each county are not official, but General McCord hopes to announce the official figures in a few days.

Neighboring counties must furnish the following numbers: Buchanan, 79; St. Joseph, 410; Holt, 66; Andrew, 72.

TELEPHONE LINEMAN INJURED.

John Lahr of Quitman Hurt By Pole Which Breaks and Falls on Him.

John Lahr, lineman for the Peoples' Telephone company at Quitman, was badly injured yesterday while working on the Bilby line, west of Quitman.

Mr. Lahr was clinging to a pole which broke near the ground, letting him fall. He struck his head and shoulders on a wagon near by. Mr. Lahr also received bruises by the pole which fell on him. He was brought to Quitman immediately and given medical attention. He is improved today.

SENDING TROOPS

DIFFICULTIES OF TRANSPORTING SOLDIERS TO FRANCE ARE MANY.

SUPPLIES ARE LACKING

Scarcity of Ships Is Also A Factor Which Will Cause Delay in Getting Armies to the Front.

Special to The Democrat-Forum.

Washington, July 17. — Records show that it is impossible to transport more than 60,000 troops to France before November or not more than a quarter of a million by next year. The need of supplies and the lack of ships is the cause. The American base on the sea coast is six times farther from the front than that of the British, forcing Pershing's men to build railroads which will necessitate a hundred thousand tons of railroad ties, 700 locomotives, and 60,000 box cars.

Food Bill Being Blocked.

Washington, July 17.—Senator Gore charges that there is a gigantic lobby blocking the food bill. He asked this afternoon to have the powers of the lobby committee extended so that a sweeping investigation might be made.

Draft Drawing Thursday, Maybe.

Washington, July 17.—Though ten states have not yet completed the draft preliminaries, Crowder believes that everything will be in working order by noon tomorrow. He hopes to get to the drawing by Thursday, but certainly by Saturday. He will hold a conference with Baker tonight to make final plans. He is expected to announce the details tomorrow.

Aviation Bill Recommended.

Washington, July 17.—The Senate military affairs committee recommended the aviation bill unanimously after half an hour's discussion, breaking the record.

Washington, July 17.—The senate military affairs committee is considering the $640,000,000 aviation bill. It is hoped that it will be before the senate tomorrow and to the President by Saturday.

ARE AGAINST CONSCRIPTION.

Government Faces Serious Opposition in Quebec Province Where Riots Have Occured.

Special to The Democrat-Forum.

Montreal, July 17.—The government faces serious opposition to the conscription law among the French-Canadians in the Quebec province, following a series of anti-draft riots. Colonel Rexford speaking for conscription was mobbed and stoned and more than 10,000 persons took part. No effort was made to arrest the parties. Orators are urging the natives to withdraw money from the banks.

BRITISH IN SEA FIGHT.

Special to The Democrat-Forum.

London, July 17.—A naval fight between the armed German steamships and the British light forces on the North sea was officially reported today. Two German ships were badly damaged but reached the coast of Holland. Four German steamships were captured.

MICHAELIS PREPARES SPEECH.

Special to The Democrat-Forum.

Zurich, July 17.—A Berlin dispatch says that Dr. Michaelis, the new chancellor, is holding a series of party conferences in the preparation of his speech before the Reichstag and will confer with the Kaiser before the speech. It is rumored that Vatican influence were in the movement against Von Bethman-Hollweg.

20,000 SLACKERS IN TEXAS.

San Antonio, July 17.—Government agents have estimated that there are 20,000 slackers in Texas.

MOB AFTER WIFE-MURDERER.

Special to The Democrat-Forum.

St. Louis, July 17.—A mob of 200 men attempted to lynch Harvey Brewington on a crowded car because when his wife refused to return to him he shot her. Hundreds witnessed the affair and the mob cried "Lynch him. Get a rope." The police rescued Brewington.

THANK WILSON FOR RECEPTION.

Special to The Democrat-Forum.

Rome, July 17.—Prince Udine, head of the Italian mission to the United States, sent a message to President Wilson, thanking him for the great welcome received in the United States. He said that King Emanuel was deeply touched when told of the reception of the mission.

PERSHING "SOLDIER" TO ARIZ.

Special to The Democrat-Forum.

An American Port, July 17.—Mrs. Hazel Blauser Carter, 22 years old, who donned khaki and went with the Pershing expedition, will start today for her home in Douglas, Ariz. She married an infantry corporal, and her identity as a member of the expedition was not discovered until five days out at sea, when her voice gave her away to the officer. All slept fully clothed on the ship deck for fear of submarines.

Various Types of Home Canning Equipment

There are four types of canning outfits suitable for home use, according to the home economics specialists of the New York College of Agriculture, who are urging every housewife to preserve some of summer's bounty against winter's wants.

A homemade hot water canner may be made out of a tin bucket or a clothes boiler or any utensil deep enough to allow cans to be covered by an inch of boiling water. A rack or false bottom is necessary to keep cans off the bottom of the container and insure free circulation of the boiling water. A tight fitting cover will help retain heat and save fuel. The commercial hot water outfits will hold more cans at one time, and they have perforated racks with handles, which are a help in handling the cans. Some commercial canners have a fire box, so they can be used out of doors.

Steam cookers are light, easily handled and fit the stove better than the boiler types. They can be used for ordinary cooking as well as for canning.

Water seal canning outfits are so made that a so called seal of water holds the cover down and creates a slight steam pressure in the space above the cans. This pressure increases the temperature somewhat above that of boiling water.

The steam pressure canners are designed to increase temperatures much above the boiling point by holding the cans under considerable pressure. Five to fifteen pounds pressure is possible in a number of portable steam pressure canners made for household use. Steam pressure canners save labor, time and heat because they shorten the time required for complete sterilization.

St. Louis.

The taxable wealth of Missouri never has reached $2,000,000,000. In Kansas it is about $3,000,000,000. Kansas has no big cities, no diversified farming, and few mines of consequence, save in the extreme southeast counties.

Reforms Are Promised.

The assessors of the state have promised the Tax commission they will obey the strict letter of the law in the future in regard to listing property at its cash value. If they do, the taxable value of the state probably will be doubled.

In the past the State Board of Equalization has failed, as have the assessors, to list property at its actual value, as the law says shall be done. The chairman of the State Tax commission, Cornelius Roach, was a member of the State Board of Equalization for eight consecutive years.

When Marriage Is A Failure.

Surely marriage is a failure when its essential purpose, the raising of a family of children, proves impossible. In the childless home the married pair, though sometimes more or less unconscious of the fact, grow disappointed and lonely. Lacking the best tie to hold them together they are likely to drift apart, hence many separations and divorces.

If every wife, whose physical state prevents motherhood, would but try that great remedy, Lydia E. Pinkham's Vegetable Compound, there would be far fewer childless homes.

Habits Are Forces

Even without considering at all the common bad habits, just think of the thousand and one little habits that largely determine one's every thought and act. In the commonest things every one is influenced by innumerable little habits that he seldom suspects. Hardly an impression, emotion, opinion, resolution or action is possible to us that is not influenced, directed and colored by fixed conditions within ourselves—habits.

Almost every move in the process of the morning's dressing, for example, is involuntary and calls for no conscious thought. Your mind is absorbed in mapping out the day's work while habit is washing and dressing you.

Habit accustoms us to doing most of the everyday things in particular ways, and we consciously turn the mind to them only when they chance to be done differently. The dividing line between efficiency and inefficiency is largely right here. Any one who stops to think about it can easily see that innumerable little habits make up a very large part of our lives. It is, indeed, well worth while carefully to study the host of little habits that breed and hide in the most secret cells of brain and muscle. None of them is too small to be worth attention.

Bad habits are the little threads with which the weak Lilliputians bound the strong Gulliver in helplessness.

Good habits are like a well made harness, enabling us to do our work in the world with less friction and waste of energy.

Habits we cannot avoid. Nor can we escape being greatly controlled by them. But we have free choice between the habits that are good and helpful and habits that are bad and harmful.—Christian Herald.

Man's Free Will.

Man's free will is but a bird in a cage. He can stop at the lower perch or he can mount to a higher. Then that which is and knows will enlarge his cage, give him a higher and a higher perch and at last break off the top of his cage and let him out to be one with the free will of the universe.—Lord Tennyson.

Girls Who Work

Here is the gist of a discussion at a business conference:

"There's nothing easier than to get out of date in your job. Because you've made a good record don't think you can lie back on it and let it float you the rest of your life. You'll find yourself in backwater in no time.

"You've got to keep growing. One way is to keep interested in what's being done all round you, especially in your own business. Another way is to get some friend you can trust to point out to you where you are slacking. Another way is to bring a few tests to bear on yourself at least once or twice a year—not salary tests (these may be deceptive), but work and idea tests."

We women need to do a lot of growing, whatever our work may be.—Jessie Roberts in New York Globe.

The Beautiful.

We ought to acquaint ourselves with the beautiful; we ought to contemplate it with rapture and attempt to raise ourselves up to its height, and in order to gain strength for that we must keep ourselves thoroughly unselfish. We must not make it our own, but rather seek to communicate it—indeed, to make a sacrifice of it to those who are dear and precious to us.—Goethe.

Joys of Life.

Along all our pathways sweet flowers are bloosoming if we will only stop to pluck them and smell their fragrance. In every meadow birds are warbling, calling to their mates and soaring into the blue, if we will only stop our grumbling long enough to hear them.

WORTH WHILE.

It is easy enough to be pleasant
When life flows by like a song,
But the man worth while is one who will smile
When everything goes wrong.
For the test of the heart is trouble,
And it always comes with the years.
And the smile that is worth the praises of earth
Is the smile that shines through tears.

It is easy enough to be prudent
When nothing tempts you to stray,
When without or within no voice of sin
Is luring your soul away.
But it's only a negative virtue
Until it is tried by fire,
And the life that is worth the honor of earth
Is the one that resists desire.

By the cynic, the sad, the fallen,
Who had no strength for the strife,
The world's highway is cumbered today.
They make up the item of life.
But the virtue that conquers passion
And the sorrow that hides the smile—
It is these that are worth the homage of earth,
For we find them but once in awhile.

What Women Like to Know

Smart Sport Suit

Silk of superior quality is the material for the waist here illustrated. It is a tailored model, with pin tucked shirt bosom, flat pointed collar and turnback cuffs ornamented with pearl buttons. The sport shirt is of washable white satin with soft draped plaits in front and gathered back. The skirt is finished with satin covered buttons and handmade buttonholes. The belt is detachable. Design by Franklin Simon & Co., New York.

SILK AND SATIN.

To Wash a Sweater.

Make a paste of a white soap and water by boiling the shaved soap slowly until dissolved. Cool and add one teaspoonful borax and one-half cupful wood alcohol. Have warm water in plenty ready (in washtub); add soap solution to water and put in sweater. "Jounce" or swish up and down without pulling or rubbing; repeat in more sudsy water. Then rinse in water equally warm and squeeze without twisting against the wool fibers. Lay in a pillow case and hang in open air, turning once or twice. When almost dry lay on a table or ironing board and pin into shape, flat, with arms and fronts even and in place and allow to dry, preferably in a warm temperature. Lay in suitbox or on covered coat hanger. Never hang up or squeeze such articles when wet.

Remedy For Corns.

Speedy removal of corns and callouses may be effected by painting twice a day with a solution of salicylic acid. Have your druggist make up the following prescription: Salicylic acid, fifteen grains; extract of cannabis indica, eight grains; alcohol, fifteen drops; ether, forty drops; flexible collodion, seventy-five drops. In applying this avoid the healthy skin. Use a camel's hair brush. Continue this for a week and the corn will fall off and callouses as well. Bathing the feet in hot water will facilitate the process of separation.

Making Good Buttonholes.

When making buttonholes in woolen, silk, or, in fact, any other material that frays, first measure accurately where the buttonholes are to be, then stitch two parallel lines with the sewing machine on the garment, the required size for the button. These lines must be about one-fourth of an inch apart. Then cut the buttonhole between the lines and buttonhole stitch with twist.—Farm and Fireside.

Homemade Detergent.

A first class homemade detergent cleaner can be made as follows: Dissolve a five cent cake of white soap in two quarts of water, add a teaspoonful of borax and a tablespoonful of alcohol. If the water is very hard double these amounts. This solution is economical, effective and noninflammable.

SAID OF WOMEN.

Women of forty always fancy they have found the fountain of youth and that they remain young in the midst of the ruins of their day.—Arsene Houssaye.

The perfect loveliness of a woman's countenance can only consist in that majestic peace which is founded in the memory of happy and useful years, full of sweet records.—John Ruskin.

Cool Comfort

with a bottle or two of *ice cold* Pablo. Pablo, the pure non-alcoholic thirst-quencher, is the delightful hot weather beverage because it cools and satisfies immediately. Its good old "hoppy" flavor delights and refreshes. Pablo brings invigorating comfort any time.

The Happy "HOPPY" DRINK

is the season's most popular beverage. The goodness of sparkling Pablo is more important because Pablo is healthful. Drink as much Pablo as you desire. You can't find a more enjoyable drink. Pablo chases away hot weather fatigue. Its snappy hop flavor adds zest and joy to any occasion. Keep Pablo on ice in the home—for your own use and for unexpected company Pablo gives delight and joy. By the case from your grocer or ice cold at any good drink stand.

Kansas City Stock Letter.

Kansas City Stock Yards, July 16.—Cattle today 32,000, biggest run this summer, market steady to 15c lower, but the best market for the size of the run anybody ever saw, top natives $13.55. Hogs today 10,000, market steady, top $15.80, same as top in Chicago. Sheep and lambs today 3,500 market steady, no choice lambs, but that kind quotable up to $15.50.

Beef Cattle.

Kansas furnished the biggest share of the run today, Oklahoma next, then Texas. A large part of the supply was light weight grass steers, on the fence between killers and stockers, and there are some loss on that kind. Prime Missouri steers topped the market at $13.55, highest price ever paid here on the open market. Kansas steers sold up to $11.85, ranging from $9.25 upwards, and Oklahoma grass steers to killers sold mostly at $9 to $10, some light ones down to $7. North Texas cake fed steers sold at $10.20 to $11. Cows sold steady to 10c lower, grass cows $7 to $8.75, canners $6 to $7, bulls $6.75 to $8.50, veals up to $13.75.

Stockers and Feeders.

Corn prospects are not far enough along to count on for sure, and the country is not quite ready for a run of the proportions of that of today, but best stockers sold steady, $9 for several lots, and downwards, the common stockers selling at $6.25 to $7.25. Feeders brought $7.50 to $10, stock cows and heifers $6 to $8.25.

Hogs.

Supply at the combined markets fell short of last Monday, and steady prices resulted, choice heavy weights selling up to $15.80, best medium weights $15.70, best lights $15.30, bulk of sales $15 to $15.65. The country promptly quit shipping last week when the market declined 30c to 40c, indicating plenty of faith in future prices. Corn is costing big money, but owners refuse to be rushed in putting hogs on the market. There is some bear sentiment, but most dealers believe the market is on a safe footing that will extend through August and September.

Sheep and Lambs.

Prices have remained unchanged since the first of last week including today, best lambs worth $15.50, ewes $9, weathers $10, yearlings $11.50. Fresh mutton and lamb are selling better at Eeastern consuming centers than a week ago, some improvement may be noted soon. Feeding lambs sold at $14 today, at which price it is easy to figure a profit, providing fat lambs do not fall below 15 cents a pound. Feeding lambs for fall delivery are selling on the range around 15 cents a pound.

John Curtis Wallace was the guest yesterday of his cousin, Augusta Edwards.
